

Approved Formulas List for California Women, Infants and Children (WIC) Program Families

Therapeutic Formulas

Updated September 2, 2022 — WIC families unable to find their regular formula can temporarily mix and match newly approved formulas in the list below.

- All of the formulas below require a prescription from your health care provider before the WIC Office can issue it.
- All new prescriptions for Nutramigen must now state the following: “Nutramigen or hypoallergenic equivalent.”
- Shop at WIC approved grocers. Find WIC grocers at [MyFamily.WIC.ca.gov](https://www.MyFamily.WIC.ca.gov).
- Scan the product with [your California WIC App](#) to confirm it is approved before checking out at the register.

- Larger containers will use more of your benefits because they make more formula.
- Contact your WIC office for help if you are only seeing your prescribed formula in the liquid ready to feed form at your WIC approved store.

If your benefits say “Nutramigen Enflora LGG Powder 12.6 oz” you can now mix and match any of these formulas listed below:

Brand	Formula Types & Sizes	Number of Cans Used in Benefit Balance
